### IPEDS Outcome Measures

For each cohort (First-time, full-time, degree-seeking students who entered in the fall of the given academic year), retention is defined as the number who are still enrolled plus the number who completed their program as of the following fall semester.

150% graduation rate is the number in the cohort who completed their program within 150% of normal time. 4-year, 6-year, and 8-year rates are from the number in the original cohort who earned a credential over the given time period.
